

**Eric Mival**

*We are looking forward to welcoming a very special guest on the occasion of the 50th anniversary of the German television premiere of **Nummer 6 - The Prisoner** - on 12th October, 2019: **Eric Mival**.*

*Eric has worked as a film editor and in 1967, on the production of **The Prisoner**, for 18 months he was music editor on 13 episodes. His work was to select pieces of music from the extensive Chappells library and edit them to match the length of filmed scenes. He worked closely with **Patrick McGoohan** and came to know him as a friend.*

*Eric has accepted an invitation to be our special guest on 12th October, 2019, at the Nordstadtzentrum community hall in Giessen, Germany. He will be telling us about his work and of course responding to questions. Be seeing you!*
